

## Ageing, health and social care for autistic people who have learning disabilities

### Workshop Invitation

**Tuesday 14th May, Carnegie Conference Centre,  
Dunfermline**

**We are inviting autistic people who have a learning disability, who live in supported living services, and are aged 45+ to share their thoughts and feelings about getting older and the support they would like to have as they age.**

**This workshop will provide different ways for people to contribute and express their thoughts: some people might like to talk, others may wish to write things down or produce some art work. At the end a professional artist will create a piece of art using words and pictures to bring together everybody's ideas.**

**Register your interest by scanning here  
or by visiting: [bit.ly/SAHWURegisterinterest](https://bit.ly/SAHWURegisterinterest)**
